

Angel of God

She's the senior Vice President of HR at Standard Chartered, a successful writer and a qualified engineer. Jyothi Menon's fourth book and first novel, 'The Angel of God' delves into the life and mind of a criminal. Her first book got her a letter of praise from then president Dr Abdul Kalam. "I love writing, I love interacting with people and I love my family. I make time for all three." Her next is a children's book about an intelligent goldfish. She's writing this one with her husband, and her daughter is keen on working on the book cover. A family enterprise.
